Item Detail

Hinge Handles

HingeHandles are a revolutionary type of hinge designed specifically for A-frame signs. Super-strong, quick to install, and very inexpensive, HingeHandles make A-frame signs easier to carry and twice as functional - all four sides can be used for signage. HingeHandles are made with a steel shaft and high-density polyethylene tabs that will flex, but not break, even in cold weather. Every HingeHandle comes with a lifetime warranty.

PRODUCT FEATURES:

- Available in 12" & 16"
- Can be used with substrates of any kind up to 1/2" thick
- Simple to install, assembly takes just a couple minutes
- HingeHandles' 330° of rotation means that all four sides can be used for signage.

Additional Images. Clicking on these thumbnail images will open a very large image. See the Search document for additional methods of finding items.
