

LIGHTING COMPONENTS' ELECTRONIC ENERGY EFFICIENT SIGN BALLASTS KEEP YOUR SIGN COOL.

Infrared photography tells the story!

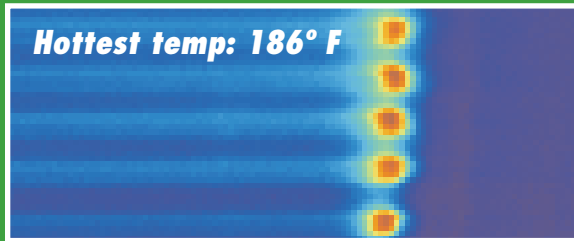

The infrared photos below show the excessive heat generated in a magnetic ballast and the filaments of the lamps it powers.

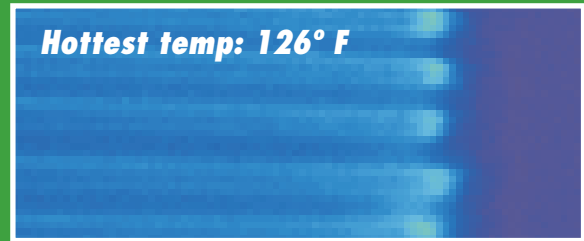

Conventional Magnetic Ballast

EESB-1048-26L Electronic Ballast

Lamps Powered by Magnetic Ballast

Lamps Powered By EESB-1048-26L

EESB Series Ballasts last years longer!

This results in significant savings in maintenance and replacement costs.

Protect the Environment while Saving Money!

The positive effects of reduced energy consumption are well documented. Save precious natural resources, lessen the need for power plants, reduce acid rain and more.
