#100 Housing

#200 Housing

#200P Housing

#300 Housing

#300P Housing

- ◆ Affordable and safe method for making neon electrode connections in raceways
- ◆ Borosilicate heat resistant glass
- ◆ Spring contact allows for easy neon tube servicing
- ◆ Rated for 7500 volt applications, including 15000 V mid-point referenced transformer installations
- ◆ Comes with a plated steel ferrule to secure the unit to the sign enclosure
- ◆ #300 and #300P recommended for use with new UL2161 Listed transformers to minimize nuisance tripping

Housing Accessories

#20 Glass Bushing

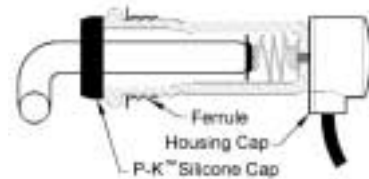

- ◆ Borosilicate heat resistant glass
- ◆ Comes with a plated steel ferrule to secure the unit to the sign enclosure

Housing Cap - Plastic Igloo Style

- ◆ Provides effective insulation for the GTO connection to the housing
- ◆ UL Listed for DRY and DAMP at 7500 volts max, including 15,000 V mid-point referenced transformer installations
- ◆ Fits Westrim #100, #200 and #200P Glass Housings or any 8-32 housing stud
- ◆ Rigid plastic, igloo-shaped

PK™ Silicone Cap

- ◆ A flexible silicone rubber cap to protect from rain, snow, dust and bugs
- ◆ Fits Westrim #200, #200P Glass Housings and PK™ Housings
- ◆ Improves UL Listing of Westrim PK™ Housings to wet locations which includes outdoor exposed installations

1-2-3 Spring Assembly

- ◆ Stainless steel spring, rivet and brass washer assembly
- ◆ Included with all Westrim PK™ Housings
- ◆ Facilitates easy GTO cable connections
- ◆ Packaged in bags of 25 each – complete with installation instructions

Description	Part Number	Catalog Number	Panel Hole	Housing Opening	Overall Height	Packaging	Weight
